

With its origins dating as far back as the 5th century BCE, the story of The Goat and Her Three Kids has variations all over the world, deeply rooted in numerous cultures, each region having assigned to it elements specific to their geography, customs or traditions. (i.e. the animals portraying the characters, the number of the offsprings, and the punishment bestowed upon the antagonist in the end all vary, but, in essence, the plot is unaltered). In the La Fontain version there's only one kid, in East Asia, the wolf is replaced by a tigre and, of course, the most recognized version being that published by the Grimm Brothers in which there are 7 kids instead of 3.

This story's popularity today is confirmed by the success its animated versions presently have on-line, gathering **billions of views** all over the world.

In Romania, the most popular animated version reached **28 million** views on YouTube in the last **2 years**.

Here are some of those animations, sorted by language and country:
